Advanced optical sensor with 7.000 DPI resolution

Take your gaming to the next level with the Trust Heron GXT 170 RGB Mouse and the advanced optical sensor with 7.000 DPI resolution.

Unbeatable aura

The full RGB lighting of the Heron is our most customizable lighting yet. The body is divided in 3 sections that you can set to any of the 16,8 million colours available. A nicely flowing gradient, the colours of your countries flag or any other personal preference. Create a custom aura that your enemies are going to know and fear.

Advanced software

After the visuals of your Heron mark are set up, the advanced gaming software allows you to also create your perfect gaming mouse from within. Design macro's and assign the 5 programmable buttons to actions to save yourself some crucial time and increase your reaction speed.
