

Docking Station Thunderbolt 3 para Laptop con USB C - Compatible con Mac y Windows

Product ID: TB3CDK2DP

For the first time, there is a plug-and-play Thunderbolt 3 docking station that intelligently adapts to your Thunderbolt 3 or USB-C (USB 3.1 Gen 1 and Gen 2) laptop offering optimal performance and compatibility. This revolutionary technology offers IT professionals the solution they need -- one dock for Mac and Windows laptops that are equipped with a USB Type-C port.

Full 4K Display Functionality

With this dedicated dual DisplayPort Thunderbolt 3 dock, you can turn your TB3 or USB 3.1 (Type-C) laptop into a dual-monitor workstation, including dual 4K60Hz resolution on Thunderbolt 3 laptops.

Thunderbolt 3 Laptops

USB-C Laptops (USB 3.1 Gen 1 & 2)

Two 4K 60Hz Monitors
(4096 x 2160)

One 4K 30Hz Monitor
(3840 x 2160)

or

Two 1080p Monitors
(1920 x 1080 | 1920 x 1200)

Please note that host laptops which do not support MST will only support a single display

Easy to Install and Deploy

Simply connect the dock to your laptop with the included Thunderbolt 3 cable and start working immediately. With easy plug-and-play installation, the dock is ready to go as soon as you connect it, saving you the time and hassle of installing additional drivers or software.

For more installation flexibility, you can use StarTech.com mounting brackets (SSPMSUDWM & SSPMSVESA) that are specifically designed for our docks and hubs, to mount your TB3 dock to a desk, wall, or other surface to give you the customized setup you need.

If you require more security, the built-in K-Slot uses a traditional laptop combination cable lock to ensure your dock stays put.

Plenty of Ports

This universal Thunderbolt 3 dock (TB3) features plenty of USB 3.0 ports to accommodate up to five USB peripherals and includes a GbE port and audio support:

- 3 x USB-A Ports (*including 1 x Fast-Charge*)
- 2 x USB-C Ports (*including 1 x Fast-Charge*)
- 1 x Gigabit Ethernet Port
- 1 x 3.5 mm Audio/Mic Port

The USB-C ports and one of the USB-A ports will support up to 10Gbps (USB 3.1 Gen 2) data transfer speeds, when the host laptop supports the same.

Power Your Laptop While Charging USB-C & USB-A Devices

Using a single cable, the dock powers and charges your laptop with 60W Power Delivery, using the included 135W power adapter. The USB-A and USB-C Fast-Charge ports can charge your smartphone, tablet or other USB peripherals whether you're working or away from your desk, and even if you disconnect your laptop.

Note: *Not all USB-C ports support the full functionality of the USB Type-C standard. Ensure that your laptop USB-C port supports DP Alt Mode and USB Power Delivery. If you have any questions around host compatibility and functionality, our Technical Advisors are happy to answer any questions.*

Certifications, Reports and Compatibility

Applications

- Ingenieros
- Creadores de contenido
- Diseñadores gráficos
- Producción audiovisual
- Configuraciones tipo BYOD (Traiga su propio dispositivo)
- Oficina compartida/temporal
- Entornos de oficinas de espacio libre
- Oficinas en casa
- Planteles educativos

Features

- Se adapta de forma inteligente a laptops equipadas con Thunderbolt 3™ y USB-C™ (USB 3.1 Gen 1 y 2)
- Fácil configuración que no requiere software controlador, incluso en el caso de doble pantalla que no requiere adaptadores extra
- Conecte dos pantallas 4K 60Hz a su laptop equipada con Thunderbolt 3, o bien dos pantallas 1080p (2K) o una sola pantalla 4K 30Hz a su laptop equipada con USB-C
- Se ajusta a diversas configuraciones con el cable de mayor longitud (0,7m) incluido
- Conecte con varios periféricos mediante los 3x puertos USB-A y los 2x puertos USB-C
- Cargue rápidamente sus dispositivos USB-A y USB-C con puertos de carga rápida

Hardware	Warranty	3 Years
	Cantidad de Puertos	3
