Sistema Sensor Dry, sensor de secado

Excelente desempeño de secado

El sistema Sensor Dry mide el nivel de humedad durante el ciclo y optimiza automáticamente el tiempo de secado. ¡Asegúrese de que el secado de su ropa esté completamente hecho!

Mantenga su Secadora Siempre Funcionando

Detecta y genera alertas de cualquier bloqueo en los conductos que pudieran reducir el flujo de salida de la secadora. Mantener un sistema de escape limpio ayuda a mejorar la eficiencia del secado, a reducir tiempo de secado largo y minimizar las llamadas a algún centro de servicio.

Smart Diagnosis

La función Smart Diagnosis es una manera práctica y fácil de diagnosticar y solucionar algún problema de tu equipo sin tener que realizar una visita al centro de servicio. Simplemente por medio de un sonido, la secadora se comunica con una computadora que diagnosticará el problema en segundos.
