## Nitidez en todas las tomas

Los movimientos involuntarios de la cámara no son un problema para este avanzado sistema de cámaras de 50 MP con estabilización óptica de imagen (OIS). Olvídate de las fotos borrosas y los videos movidos. Además, la tecnología Ultra Pixel te permite capturar fotos nítidas y brillantes de día o de noche.

## Píxeles más grandes para capturar fotos ultranítidas

Mientras más grandes son los píxeles, mayor es la iluminación. A mayor iluminación, mejores fotos. Todo comienza con la cámara de 50 MP que captura todos los detalles a la luz del día. Cuando las condiciones de luz son desafiantes, la cámara combina los cuatro píxeles en un Ultra Pixel más grande de 2.0 µm.

## Fotos ideales para las redes sociales

Captura selfies increíbles al instante. No te pierdas ningún momento gracias a la cámara de 16 MP con enfoque rápido.
