A10050QC Power Bank

A10050QC Power Bank

The A10050QC cuts down device batter top-up times with Qualcomm Quick Charge 3.0 technology, outputting up to 18W. Premium materials used in the USB-C connector support stable power delivery and heat management, helping the power bank sustain synchronous charge/discharge so you can recharge it while delivering power to connected devices safely. There are two ports on the A10050QC capable of max 4.6A output (up to 3.0A in port 1 and 2.5A in port 2, non-concurrently). This is more than enough to charge a smartphone and a tablet quickly side by side, helping you make better use of your precious time .

Extra convenience with reversible USB-C

The A10050QC has USB-C output no need to check which side is up and which is down. Enabling up to 18W compared to 15W before to boost charging speed and shorten waiting times. *Qualcomm Quick Charge 3.0 features available only through USB-C ports

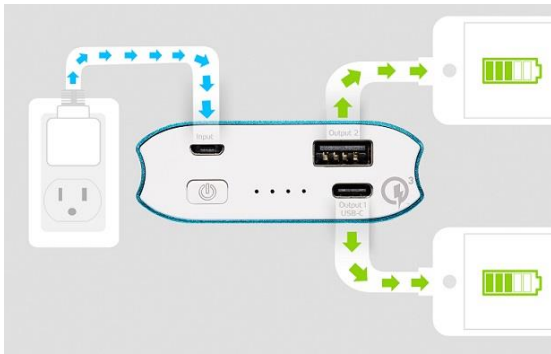

Intelligent charge control

Intelligent Negotiation for Optimum Voltage, or INOV, is a feature on the A10050QC that enables fast switching from 5V to 12V as needed for each charged device. This maximizes efficiency, reduces power loss, and greatly increases safety. *Feature exclusive to USB-C output ports

Sync charge/discharge

The A10050QC is designed for simultaneous charge and discharge. Input power has been increased to 2.5A, outputs provide up to 4.6A in total, allocated as 3.0A for port 1 and 2.5A for port 2. *Feature exclusive to USB-C output ports

Features

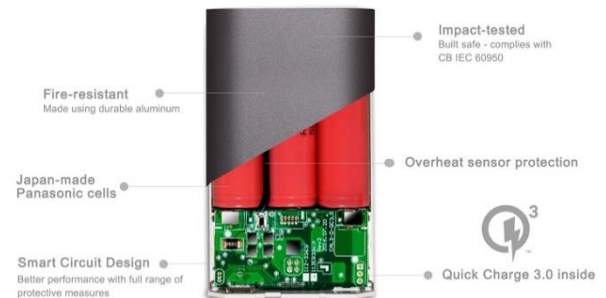

- With Qualcomm Quick Charge 3.0 technology, total outputting up to 23W
- Reversible USB-C connector with 18W
- Dual USB Port with max 4.6A output (up to 3.0A in port 1 and 2.5A in port 2, non-concurrently).
- Intelligent Negotiation for Optimum Voltage
- Simultaneous Charge & Discharge (only USB-C)
- Multiple Circuit Protection

Specifications

- Capacity: 10050mAh
- Battery: Li-ion
- Color: Titanium / Blue
- Dimension: 105.2x64.07x23mm/4.13x2.52x 0.9"
- Weight: 247g / 8.71oz
- Input: DC 5V/2.5A (Micro USB)
- Output1: Qualcomm Quick Charge 3.0
DC 5-6V 3A; DC 6-9V 2A; DC 9-12V 1.5A (USB-C)
- Output2: DC 5V 2.5A (USB-A)
- Warranty: 1 year

Finest materials and components

The A10050QC employs premium Panasonic power cells. Every components passes strict testing and verification to ensure safety, stability, and durability. ADATA custom circuitry provides protection against overcharge, over-discharge, overheating, overvoltage, and more.

Ordering Information

Color	Model Number	EAN Code
Titanium	■ AA10050QC-USBC-5V-CTI	4712366968233
Blue	■ AA10050QC-USBC-5V-CBL	4712366968240
