

CW0050

## Wireless Charging — Set You Free

### CW0050 Wireless Charging Pad

The CW0050 wireless charger offers unprecedented convenience, simply place your phone on the 6mm ultra-thin charging plate to start receiving power! The CW0050's Qi certification shows its quality, and makes it compatible with a wide range of iOS/Android smartphone brands and models.

#### Ultra-thin ultra-stylish design

The CW0050 is merely 6mm thick, which makes it easy to carry and deploy in this power-hungry mobile age.

#### Qi certification for maximum quality

The CW0050 is compliant with Qi standards, and its ceramic capacitor is made in Japan, providing a steady power supply that's unaffected by time, temperature, or voltage. This means that the CW0050 is safer than other wireless chargers!

### Multiple circuit protection mechanisms

The CW0050 is equipped with over-charging, over-discharging, over-heating, and short circuit protections, as well as input over-voltage and output over-current protection and FOD (Foreign object detection).

### Stylish, trendy, and flawlessly compatible

The CW0050 is compatible with a wide range of new smartphone models, and can instead enjoy easy convenience in a fashionable package!
