

TeraStation™ 5020 Series

TS5420DN, TS5420 RN, TS5820DN, TS51220RH

HIGH PERFORMANCE BUSINESS CLASS SCALABLE STORAGE SOLUTION

TeraStation 5010 is a high performing business-class network attached storage (NAS) featuring powerful processing power and native 10GbE support. Accelerate speed and overall performance with business class processing power supporting 100 concurrent sessions with sustained performance even during heavy-load operations. The TS5010 family comes with NAS/Enterprise grade hard drives* included with partially populated models to fit today's needs while planning for tomorrow's storage concerns. Partially populated models include 4 & 8 bay desktop and 4 & 12 bay rackmount units.

TeraStation 5810DN is an eight bay desktop system featuring a native 10GbE port. Base models ship with NAS-grade hard drives allowing future scalability. Users with defined storage needs can order fully populated models with eight NAS-grade hard drives up to 64TB of storage capacity.

TeraStation 51210RH is a 2U rackmount system offering scalability. Base models ship with four enterprise-grade hard drives allowing users to meet future storage demands by simply adding additional hard drives. Users with defined storage needs have the ability to select fully populated systems with twelve enterprise-grade hard drives included up to 192TB total storage capacity.

TeraStation 51210RH includes dual 10GbE ports and a rail kit for easy deployment.

Strong Performance

- Premium grade components (NAS & Enterprise-grade hard drives)
- Up to 2 native 10GbE ports*
Quad-core Annapurna processor
- VMware certified (iSCSI & NFS certifications)*

Simple Experience

- Hard drives included*
- Industrial-grade internal power supply
- Pre-configured RAID enabled systems
- 24/7 North American based support

Enhanced Security and Reliability

- 256-bit AES encryption
- Premium metal chassis with Kensington security slot and front panel lock*
- Boot Authentication - locks device until authenticated on network in case of theft
- Duplex Firmware for reduced system downtime

Business Class Solutions

- Private & 3rd party integrated cloud support
- Novastor Business Essentials server and workstation licensing
- Use cases include: Virtualized storage target, Offsite disaster recovery, and File sharing & local backup

*TS5410DN, TS5810DN and TS5410RN ship with NAS-grade hard drives. TS51210RH ship with enterprise-grade hard drives and two native 10GbE ports.

*TS5410DN, TS5810DN include Kensington security slot and front panel lock

AT BUFFALO, WE'RE ALWAYS ON

At Buffalo, we work hard to make sure peace of mind is included with all Buffalo products. This starts with products that are reliable, easy to deploy and supported after the sale. Our 24/7 North American-based team is on hand to help identify solutions that are the right fit for your business. Once your product is deployed our team is available to resolve any questions or issues.

High Performance Scalable Solution
